

Enabling Global Supply Chains to be Inclusive, Climate-Smart, and Traceable

BEYOND TRACEABILITY

We help **19,000+** registered enterprises achieve traceable & resilient supply chains

and enable **2,000,000+** verified producers increase their annual income 4x

Our Vision

To be the world's leading tech company
in building **ethical, transparent, and
sustainable** supply chains.

Our Mission

We strive to grow a high-performance organization, **digitizing agribusinesses and producers** to the transition of sustainable production and traceable sourcing.

As a **triple-tech company**, we combine **Fintech**, **AgriTech**, and **ClimateTech** with 'boots on the ground' for sustainable global supply chains.

Professional Services, **Beyond Traceability**

Our Story Started in 2013

2013

PT Koltiva founded in Indonesia with our first CocoaTrace to digitize smallholder producers in Cocoa.

2017

Koltiva AG founding in Switzerland, and scale up to Palm Oil with our first 'Boots on the Ground'

2018

Seascope expansion for Seaweed, and launch of our first multi-crop platform

2021

Launch of **integrated traceability** platform, extension services, and digital finance services.

2023

Reached the milestone of **1 million registered producers** and launched **KoltiVerify** as part of Koltiva's EUDR compliance solutions.

2024

Broadened our reach to **58 commodities** and established a **legal entity in Colombia**, expanding our footprint in Latin America.

Seed to Table Transactions

\$ 400 Mn

Gross Transaction Volume (GTV)

We integrate complex data, support sustainability compliance for our clients' whole supply chain

Solving Producers Pain-Points

We improve farm productivity and increase producers' income 4x

A purposive sampling of cocoa producers using all our products & services.

We increase consumers' trust with traceability for seed-to-table impact

Businesses Need Holistic Innovations **to Achieve the Impact** of Sustainable Economic Growth

1 NO POVERTY

The need for a holistic solution to improve livelihood.

5 GENDER EQUALITY

Achieve gender equality and solve discrimination.

8 DECENT WORK AND ECONOMIC GROWTH

Promote farm productivity, labour market challenges.

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

Ensure sustainable consumption & production pattern.

13 CLIMATE ACTION

Take urgent action to combat climate change and its impact.

14 LIFE BELOW WATER

Conserve and sustainably use the oceans, seas & marine resources.

17 PARTNERSHIPS FOR THE GOALS

Promote inclusive partnerships for equitable and sustainable development.

15 LIFE ON LAND

Protect, restore and promote sustainable use of terrestrial ecosystems.

The Koltiva Impact Drive

Uplifting Smallholder Producers' Livelihoods and Rural Entrepreneurs with Technology-Powered Solutions

KOLTITRACE

TECH SOLUTIONS FROM SEED TO TABLE

Software ecosystem integrating MIS, ERP, CRM, CMS, GIS, IoT, and digital financial services for web and mobile, providing an end-to-end solution that connects farmers, buyers, and brands to build traceable and sustainable global value chains.

KOLTISKILLS

PROFESSIONAL SERVICES BEYOND TRACEABILITY

Project management and 'boots-on-the-ground' field activities focused on producer farm mapping, risk assessments, impact measurement, and tailored training interventions to build capacity and drive sustainable outcomes for local communities and global buyers.

Our Holistic Tech & Service Solutions

KOLTITRACE

KoltiTrace MIS, Integrated **Multi-Crop Platform** for Businesses and Producers

Farm Management

Producers data profile, training metrics, register and survey suppliers, interaction with producers including price notifications.

Traceability Data-Proven

Crop production traceability with complete producers, data profile and verified digital transaction from seed to table.

Geo Location Mapping

Advanced geo-location mapping for verified supply chains. Map production units and fields.

Supply Chain GHG Assessment

Seed to Factory Scope 3 GHG emissions, including mapping deforestation and emissions from historic Land Use Change (LUC).

Connected with IoT

Automate data exchange with smart farming technology solutions with digital scales, portable soil analysis, and solar-powered weather station.

Extension Services

Producer surveys, polygon mapping of farm boundaries, training and coaching registrations, including access to agriculture knowledge & material.

KoltiSkills, Extension Services Beyond Traceability

Koltiva's 'boots-on-the-ground' extension services support companies to implement sustainable sourcing efforts in the first mile of global value chains. Koltiva deploys hundreds of Field Agents globally to work directly in producer communities.

KOLTISKILLS

Koltiva's Field Agents support businesses and producer communities to accelerate the adoption of sustainable production practices, which in turn improves their income and protects the environment.

Through training and surveying activities, KoltiSkills offers critical support for our clients' sustainable sourcing projects by using a combined technology and human interaction approach.

SUPPLY CHAIN MAPPING AND VERIFICATION

Producer surveying to map the origins of your products, verify farm production practices and emissions, and ensure compliance to your sustainability standards (or third-party certification standards).

TRAINING AND COACHING

Group training to raise awareness of sustainable practices and one-on-one coaching to support producer households in implementing their farm development plans.

PRODUCT TRACEABILITY

Monitoring for supply chain actors in the field to verify product segregation and support quality control, from seed to table.

KoltiPay, Responsible **Digital Finance** for the Agriculture Sector

Premium Distribution

Execute premium payment distributions to producers and suppliers with affordable cost, easy-to-use single dashboard.

Agri-Input Purchasing

Agri-input purchasing process from producers to kiosk, distributors, and manufacturers with cashless payments.

Manage Loan Application

Easy access to loan application, credit scoring with Machine Learning (ML), verify & approve loans, repayment monitoring.

Crop Procurement

Procure producers' crop with ease and select payment options with split cash- and cashless transactions to eWallet and virtual accounts.

PPOB

Payment point online bank is available to allow users pay electricity bills, internet packages, phone credits, etc.
